# SCAN COIN SCANCount 103 Value Counter

 **SCAN COIN**

The SCAN COIN SCANCount 103 has been developed to speed up your coin processing. It handles and verifies up to 2,500 coins per minute in eight denominations, whereas most other value counters on the market are limited to 600-800 coins in the same time. You soon notice the difference.

#### Accuracy in action

Apart from being a fast worker, the SCANCount 103 is renowned for having the highest possible accuracy in counting mixed batches of coins. It is also exceptionally accurate for off-sorting counterfeit, foreign or damaged coins.

#### Competitive performance

SCAN COIN SCANCount 103 offers several competitive features such as freely programmable stop amounts, automatic coin feed, noise reduction lid, RS232 interface for external control, remote display, quick-change coin transport mechanism and various memory levels.

#### Easy operation

The machine is easily operated from a clear and logical display – designed to perfectly suit the needs of the operator. A wide space between the outlets makes it easy to change bags. An automatic coin feed and a cover reducing noise and dust are other examples of classic SCAN COIN ergonomics.

#### Desktop efficiency

The SCAN COIN SCANCount 103 is designed for desktop use. There is no need for space-consuming stands or special furniture. Just place it where it suits you best and from day one the SCANCount 103 is a convenient working partner.

#### Flexible choices

The SCAN COIN SCANCount 103 is recommended for volumes higher than 20,000 coins per day. If you do not need such a high capacity, please contact us and we will help you find a solution that suits your needs.

Extra door for using coin tubes.

Sorting mode of up to nine denominations at high speed.

Clear and user-friendly display.

Accepts both bags and tubes.

#### TECHNICAL SPECIFICATIONS

<b>WIDTH</b>	553 mm / 21.8"
<b>DEPTH</b>	367 mm / 14.4", 413 mm/16.3" incl. outlets
<b>HEIGHT</b>	306 mm / 12.0"
<b>WEIGHT</b>	32 kg / 70.5 lbs
<b>VOLTAGE</b>	230 V/50 Hz, 115 V/60 Hz
<b>POWER CONSUMPTION</b>	approx. 120 VA
<b>SPEED</b>	Up to 2,500 coins/min.
<b>DIAMETER RANGE</b>	16.1-31.0 mm (standard) Special diameters on request
<b>THICKNESS RANGE</b>	1.0-3.2 mm (standard)

Founded in 1966, SCAN COIN is one of today's leading suppliers of cash processing equipment, system solutions and services. Our worldwide customer base is served through a network of SCAN COIN companies and distribution partners covering some 120 countries. SCAN COIN develops, manufactures and markets equipment and integrated solutions for handling banknotes and coins, and has become a world leader in the automatic cash processing market.
