
SCAN COIN SCANSort 430 Coin Sorter

The SCAN COIN SCANSort 430 has been developed to speed up your coin processing. It sorts up to 3,500 (!) coins per minute in eight denominations. This real heavy-duty machine is the perfect option for customers handling large quantities of coins.

Accuracy in action

Apart from being a fast worker, the SCANSort 430 is renowned for having the highest possible accuracy in counting, sorting and batching. It is also exceptionally accurate for off-sorting counterfeit, foreign and damaged coins.

SCAN COIN Quickrail®

Like any other SCAN COIN coin sorter, the SCANSort 430 is equipped with SCAN COIN Quickrail® – a fast-change sorting track. It can be changed in next to no time and minimum maintenance is required.

Extra door for using coin tubes.

Sorting mode of up to nine denominations at high speed.

Clear and user-friendly display.

Accepts both bags and tubes.

Easy operation

The machine is easily operated from a clear and logical display – designed to perfectly suit the needs of the operator. It has a large coin tray with high capacity. An automatic coin feed and a cover reducing noise and dust are other examples of classic SCAN COIN ergonomics.

Desktop efficiency

The SCANSort 430 has been designed for desktop use. There is no need for space-consuming stands or special furniture. Just place it where it suits you best and from day one the SCANSort 430 is a convenient working partner.

The SCANSort 430 MS 10 C

MS means that the sorter is a multi-stop version, i.e. several denominations can be packed into bags or tubes in one step, eliminating unnecessary stops for packing after the coins are sorted. The amount of each batch can be defined and pre-programmed to meet the needs of all users.

TECHNICAL SPECIFICATIONS

WIDTH	1,232 mm / 48.5"
DEPTH	468 mm / 18.4", 512 mm/20.2" incl. outlets
HEIGHT	334 mm / 13.1"
WEIGHT	76.5 kg / 168.6 lbs
VOLTAGE	230 V/50 Hz, 115 V/60 Hz
POWER CONSUMPTION	approx. 300 VA
SPEED	Up to 3,500 coins/min.
DIAMETER RANGE	15.5-31.0 mm (standard) Special diameters on request
THICKNESS RANGE	1.0-3.2 mm (standard)

Founded in 1966, SCAN COIN is one of today's leading suppliers of cash processing equipment, system solutions and services. Our worldwide customer base is served through a network of SCAN COIN companies and distribution partners covering some 120 countries. SCAN COIN develops, manufactures and markets equipment and integrated solutions for handling banknotes and coins, and has become a world leader in the automatic cash processing market.
