Certichex32
MICR Laser Software

- Streamline Your Payment Process

- Print All Check Information In One Step

- Compatible With Most Accounting Systems

- Multiple Security Features

CERTICHEX32 streamlines your payment process and leaves the hassles of conventional checkwriting in the past. The many features of Certichex32 allow you to increase productivity while maintaining multilevel security. By utilizing a MICR laser printer and our Windows®-based software, you will significantly reduce the time required to process checks while reducing check costs by 5 to 15 cents per check. Printing checks from blank safety paper enhances security and reduces inventory. Changes to company name, address, phone, or bank information are done easily and securely. All this is accomplished without changes to your existing accounting system.

ADDED FLEXIBILITY:

- Design and personalize custom checks using company and bank logos
- Edit and change information easily
- Print checks drawn on different accounts in the same batch
- Print unlimited voucher detail information
- Increase productivity
- Print bank information, MICR line, protected amount, and signatures in one process
- Eliminate hand feeding, decollating, signing, and bursting continuous form checks

MULTILEVEL SECURITY:

- Print checks on readily available standard or customized safety paper
- Eliminate the need to physically secure blank checks and authorized signatures
- Access software program with authorized user password USB key
- Establish dollar amount thresholds on checks
- Eliminate the cost of preprinting institution and bank information
- Waste less paper by printing voucher details on regular laser paper
- CertiSecure Design which helps to prevent forgery and alteration of checks
- Signature Swipe card and reader
- Positive Pay Module

BROAD COMPATIBILITY:

- Utilizes Windows®-based software technology and MICR printing
- Can be configured for most MICR laser printers
- Supports multi-currency and international check formats
- Compatible with most accounting programs
- Ability to print to multiple printers
- PC Windows® 2000, and XP

"The time we saved using Certichex32 has added to the
  efficiency and productivity of our entire department."

"We have some checks with 30 pages of voucher overflow.
  Certichex32 does this without missing check numbers. I can't
  imagine using a conventional system."

"The Certichex software has eliminated the hassle of
  continuous-form checks and simplified the whole payables
  process for our company."
